

This year we invite you to join us at the **28th Adults Learning Mathematics conference**:

ALM28 - Numeracy and Vulnerability

Monday, July 5th - Wednesday, July 7th 2021

The conference will be **virtual** and **hosted at the University of Hamburg**.

Main themes of the conference will be addressed by the following Keynotes seminars:

- **The relation between numeracy skills and practices and (societal and individual) vulnerability** (keynote by Professor Anke Grotlüschen, University of Hamburg)
- **The international reproduction of vulnerability in numeracy assessments** by Professor Gelsa Knijnik (Universidade do Vale do Rio dos Sinos)
- **The new literacies of automation: Justice in the digital era** by Dr. Suzanne Smythe (Simon Frazer University, Burnaby, CAN)
- **Financial numeracy and vulnerability** by Associate Professor José Julián Coa-Alvira (The City University of New York, USA)
- **Climate change in the mathematics and numeracy classroom- Discussion** with Professor Chris Budd chaired by Dr. Beth Kelly (ALM chairperson, University College London, Institute of Education)
- **Covid-19 and numeracy challenges** (keynote by Professor Kevin McConway, Open University, UK)

A series of workshops and sessions will also be held throughout the conference on a range of topics. The schedule plus abstracts for these sessions will be available prior to the conference to help participants choose which to attend.

We are looking forward to seeing you at the conference. You can find more information on the **ALM28-website** (<https://alm-online.net/alm28-conference/>) which we will update regularly.

You can **register** for the conference at <https://www.conferences.uni-hamburg.de/event/139/registrations/136/> There is a small fee attached to the conference but ALM aims to be inclusive and so provides financial support to practitioners and researchers from institutions involved in Adults Learning Mathematics. More information is available on the ALM 28 webpage.

If you have further questions visit the ALM28-website (<https://alm-online.net/alm28-conference/>) or contact Lisanne Heilmann (Lisanne.heilmann@uni-hamburg.de)
